

USER MANUAL

PM-KUSUM: UTTAR PRADESH State Solar Energy Data Management Platform(Component – A Distributed Solar PV)

Document is developed by HKRP Innovations LLP (HKRP) for Ministry of New and renewable Energy (MNRE) and UTTAR PRADESH Renewable Energy Development Limited (UPNEDA), UTTAR PRADESH under contract number [080 2228 2220](https://www.mnre.gov.in)

This document has been prepared on the basis set out in HKRP's contract for 'To develop state Portals and integrate that with National portal for monitoring and progress of Component C Feeder Level Solarisation for PMKUSUM' with Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH ("the Client").

1. INTRODUCTION TO PM-KUSUM SCHEME

Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan (PM-KUSUM) scheme was initiated by Government of India and launched by the Ministry of New and Renewable Energy (MNRE) to provide farmers with renewable as well as feasible energy sources for electricity and irrigation. PM-KUSUM Yojana got its administrative approval in March 2019 and guidelines were framed in July 2019. The scheme aims towards the installation of solar pumps and grid-connected solar panels in nationwide farmlands, in order to de-dieselize and solarise the agricultural sector.

PM-KUSUM scheme plans to add solar renewable capacity of 30.8 GW by 2022 with the total central financial support of INR 34,035Crore including installation and service charges to the implementing agencies.

The Scheme consists of three components:

- Component A: 10,000 MW of Decentralized Ground Mounted Grid Connected Renewable Power Plants of individual plant size up to 2 MW.
- Component B: Installation of 20 lakh standalone Solar Powered Agriculture Pumps of individual pump capacity up to 7.5 HP.
- Component C: Solarisation of 15 Lakh Grid-connected Agriculture Pumps of individual pump capacity up to 7.5 HP.

In State, the scheme will be run under the supervision of the Central Government's subordinate Ministry of New and Renewable Energy.

This scheme is especially for the farmers, which is also being added as an important effort towards increasing the income of the farmers.

The Central Government's PM-KUSUM Yojana has been launched in State, which will bring prosperity in the lives of farmers. This scheme has been implemented with the objective of saving electricity during agricultural operations, reducing the electricity expenditure of farmers and promoting solar energy.

2. SEDM PURPOSE & VISION

The Solar Energy Data Management (SEDM) Platform has been developed to serve the vision of **One Nation – One Solar** for PM-KUSUM scheme.

The primary features of SEDM:

- 1) A single platform to monitor various Solar PV based plants and pumps installed under PM-KUSUM scheme in State.
 - Stand-alone Solar Pumps, Grid Connected Solar Pumps, Distributed Solar Plants.
- 2) A single platform for multiple stakeholders
 - Farmers, Empanelled Agencies (EA), State Implementing Agency (SIA) SIA, DISCOM, MNRE,
- 3) A single platform to undertake multiple processes under PM KUSUM scheme like
 - Consumer/Farmer Registration, DBT Integration, Project Process Management, Asset Management, Complaints Management.
- 4) A single platform to remotely monitor plants and pumps by connecting to multiple devices such as
 - Pump controllers, Drivers, Energy meters, Inverters, Combiner boxes etc.

3. WELCOME PAGE

Upon opening the State SEDM portal, all users (registered/unregistered) land on the welcome page of the portal.

Figure 1 WELCOME PAGE

- On the welcome page's heading, there is a provision of "Frequently Asked Questions (FAQs)" provided (as highlighted in red in above Figure 1). Below are the frequently asked questions, as shown in Figure 2.

FREQUENTLY ASKED QUESTIONS

1. What are the different kind of systems supported under PM-KUSUM Scheme?	–
PM-KUSUM Scheme supports three different kind of installations, known as three components of the Scheme as given below: i. Component-A: Setting up of decentralized ground/ stilt mounted grid connected solar or other renewable energy based power plants up to 2 MW capacity ii. Component-B: Installation of stand-alone solar agriculture pumps of capacity up to 7.5 HP iii. Component-C: Solarisation of existing grid connected agriculture pumps of capacity up to 7.5 HP	
2. What is Component-A of PM-KUSUM Scheme?	+
3. Who is eligible under Component-A of PM-KUSUM Scheme?	+
4. Who will purchase the generated electricity?	+
5. Can farmers lease their land for the development of renewable energy power plant under Component-A?	+
6. What kind of financial support is available under Component-A of the Scheme?	+
7. What is Component-B of PM-KUSUM Scheme?	+
8. Who is eligible under component B of PM-KUSUM?	+
9. Is there any subsidy for the installation of solar pump?	+
10. What is Component-C of PM-KUSUM Scheme?	+
11. Who is eligible under component C of PM-KUSUM?	+

Figure 2 FAQ

- The provision of language is selection is also there on the “Welcome Page” in which default selection will be of “English” language (highlighted in yellow in Figure 1). After selection of different language, corresponding output are shown below in Figure 2.

➤ Selected – Hindi

Figure 3 HINDI SELECTED

- On the welcome page, there are 5 indicators among which 3 depicting the components of PM-KUSUM scheme along with the cumulative figures of total solar plants and pumps installed and their capacity and other two depicts Total Solar Generation (MWh) and Total Carbon Footprint Reduced (Tons) (as shown in Figure 1).
- To get a detailed view of the capacity installed under each component, click on the 'District Wise Details' tab under each component (as shown in below Figure 4 C Feeder Level Solarisation (C FLS) District Wise Details the blue box), which will generate a detailed report in tabular form.(refer Figure 5)

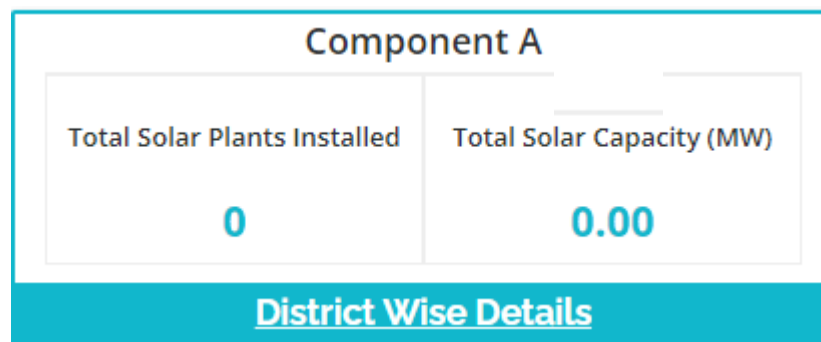

Figure 4 C FEEDER LEVEL SOLARISATION (C FLS) DISTRICT WISE DETAILS

Component - A		
District	Total Solar Plants Installed	Total Solar Capacity (MW)
GANGANA GAR	0	0
HANUMAN GARH	0	0
JAIPUR	0	0
JALSALMER	0	0
JALORE	0	0
JHALAWAR	0	0
JHUNJHUNU	0	0
JODHPUR	0	0

Figure 5 PM-KUSUM C FEEDER LEVEL SOLARISATION (C FLS) DISTRICT WISE STATUS REPORT

- District Wise Details provide the view of total installed Standalone Pumps and its capacity against Districts of State.
- Such report can be also seen without login into the SEDM Portal.

- **“IMPORTANT DOCUMENTS”** tab displays list of documents that are vital for the PM KUSUM scheme. (as shown in Figure10)
 - Uploaded Documents can be taken out manually.

Figure 10 IMPORTANT DOCUMENTS

- **“CONTACT US”** tab displays list of all Nodal officers of Districts for PM KUSUM C Feeder Level Solarisation (C FLS). (as shown in Figure 11)

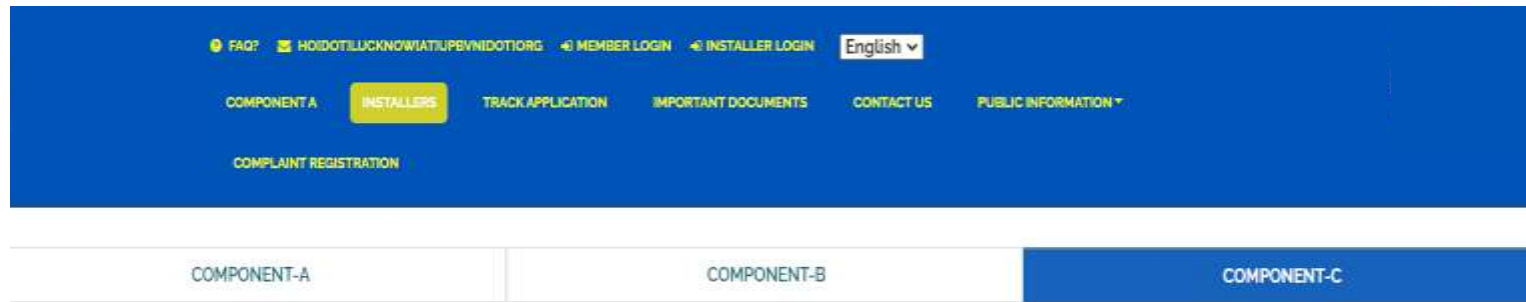

Figure 11 CONTACT US

4. SIGN IN ON SEDM PLATFORM

- To log in onto the SEDM portal, users can click on the **“MEMBER LOGIN OR INSTALLER LOGIN”** option on the Welcome Page.(highlighted in red in Figure 12)

Table 4 INFORMATION OF LOGIN

Role	Login Option
Head Officer	
District Officer	MEMBER LOGIN
Empanelled Agency/Developer	INSTALLER LOGIN

- Such login options will be visible to all users including HO, DISCOM, SDN and EA.
- By clicking on the login options, it will show a pop-up box where the user must enter his username, password and the captcha code to sign in into their account.
- The user will be provided the credentials via email if the email gateway is configured.
- NOTE: If email gateway is not configured then Organization admin can share credentials manually. (click [User Role](#) for more details)

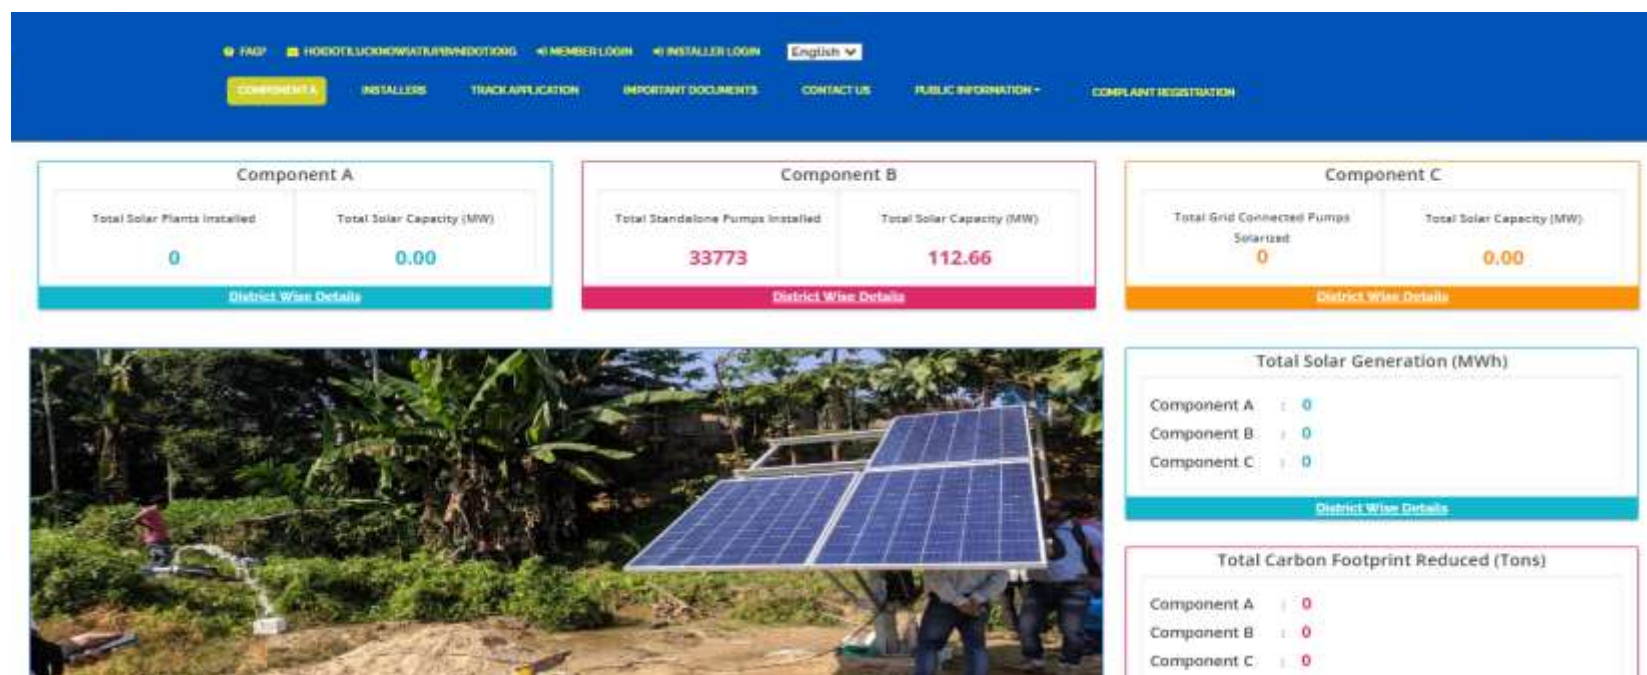

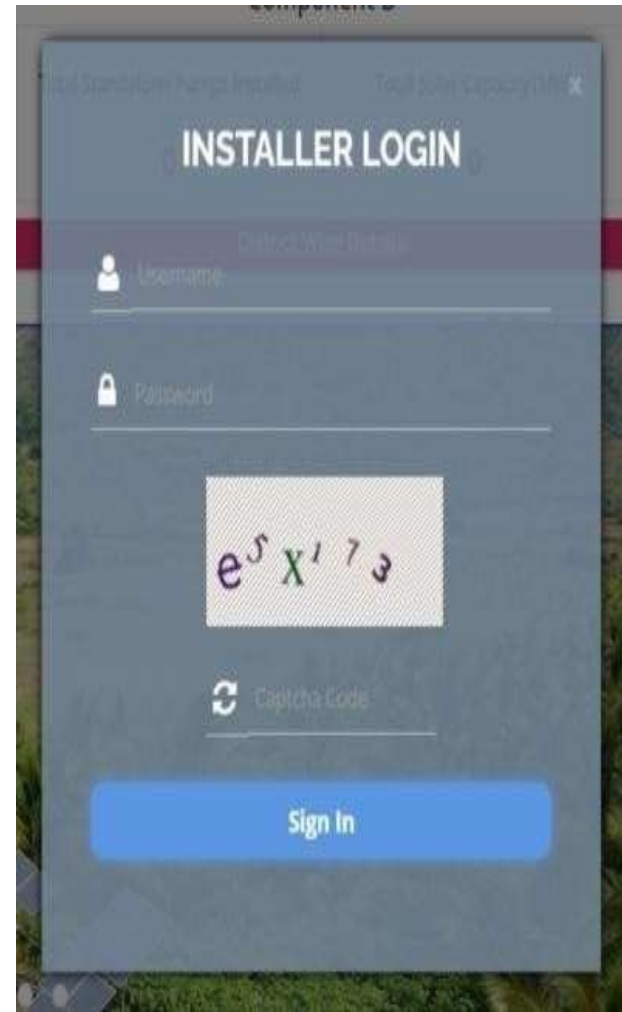

Figure 12 SIGN IN PAGE

Member Login pop-up for State Implementing Agency

Installer Login pop-up for Empanelled Agency

Figure 13 SIGN IN SCREEN

5. HOME PAGE

- After the user successfully logs in to the SEDM portal it lands on the Home Page screen.

On the Home Page, users can select any of the 1 components to view the required Consumer/Farmer details, asset management, application tracking, performance analysis, etc.

- **Component A:** Distributed Solar PV
- **Component B:** Off Grid Solar Pump
- **Component C:** Grid Connected Solar Pump

- Navigation Steps: -
 1. Sign in on the State SEDM Portal
 2. Click on 'Off Grid Solar Pump' icon on the Home Page as shown in the Figure 14 to access the Component-B of PM-KUSUM Scheme.
- Users having rights to access of related components (A, B, C) only will be allowed to navigate through

Figure 14 HOME PAGE

6. USER PROFILE PAGE

- The users can view their profile information by clicking on the 'user' icon image in the top right corner (highlighted in red in below Figure 15) on this manual is for Component B le bar and then selecting the 'My Profile' option.
- Navigation Steps: -
 1. Sign in on the State SEDM Portal
 2. Click on the 'User' icon on the Title Bar of the SEDM Portal Dashboard

The screenshot shows the 'User Management' section of the application. It includes a search bar, a table of users, and pagination controls. The table contains the following data:

Delete	Change Password	Assign Farmer Rights	Assign Module Rights	Department	User Name	First Name	Last Name	Designation	Email	Contact Details	Access Type	Primary Role
				Sri Savitir Solar pvt Ltd	user_2	sri	s		ari@gmail.com	6358894270	Portal	OrganizationAdmin
				Junna Solar Systems Pvt Ltd	user_1	epc1	e		user@gmail.com	8456521210	Portal	OrganizationAdmin

				Sri Savitir Solar pvt Ltd	savitir	Ramesh	AV	Manager	savitir@gmail.com	9876463364	Portal	OrganizationAdmin

Showing 1 to 5 of 5 entries

Figure 15 USER ROLE

The screenshot shows the 'Module Wise Rights' configuration interface. It displays a tree structure where 'Component-CF' is expanded to show the following modules:

- Consumer
- Scheme Progress
- Site Survey
- Live Monitoring
- Setting
- Device Registration

Figure 16 USER PROFILE INFORMATION BOX

- The following details are listed under 'My Profile' template card:
 - Username
 - First Name
 - Last Name
 - Email
 - Phone Number
 - Department
 - Department Role
 - Access Type
 - User Rights
- If the user wishes to change any details or sees a discrepancy in his details, he can contact the SEDM support team for required modifications.
- Ctrl + Click here  [“Support Team”](#) for Support Team Contact detail

7. CHANGE PASSWORD

- The users can change their account password by clicking on the 'user' icon image in the top right corner on the title bar and then selecting the 'Change Password' option.
- Navigation Steps: -
 1. Sign in on the State SEDM Portal
 2. Click on the 'User' icon on the Title Bar of the SEDM Portal Dashboard
 3. Click on the 'Change Password' option from the drop-down menu

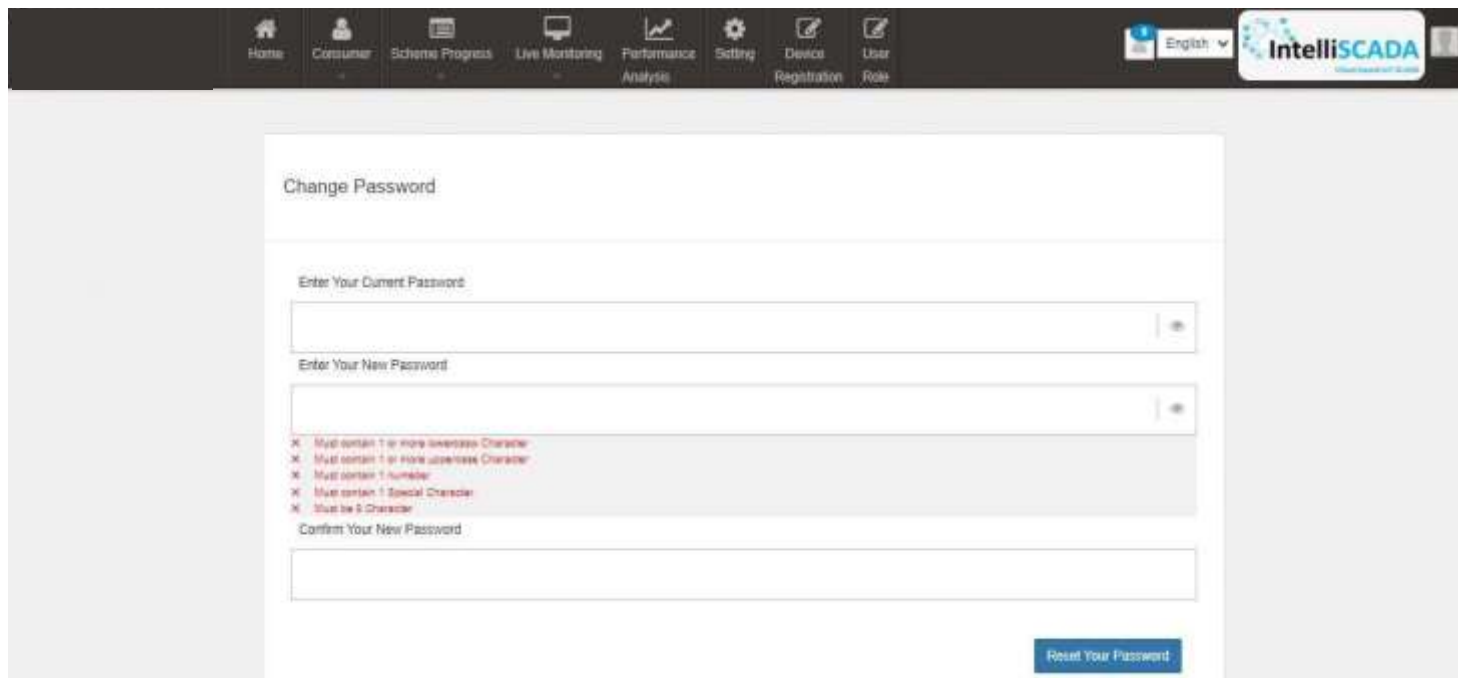

Figure 17 CHANGE PASSWORD

- The users can change their password by entering the current password, a new password and re-entering the new password to confirm it in the mentioned text fields. Then click on the 'Change Password' button to complete the process.
- Your New Password box and Confirm Your New Password box must have same password inputs otherwise an error will occur i.e. **Please enter the same password as entered New Password**

Note: Users should make sure their passwords are strong and secure as per below mentioned validations to avoid any untoward activities or misuse of their credentials by any other party.

- Length must be of minimum 8 characters
- 1 or more lowercase character
- 1 or more uppercase character
- 1 special character
- 1 or more numbers
-

8. REGISTER NEW STATE IMPLEMENTING AGENCY (SIA)

- SIA will be shared **Super Admin** credential that can have access to all the three Components i.e. Distributed Solar PV (Component A), Off Grid Solar Pump (Component B) and Grid Connected Solar Pump (Component C) and also can have access to all the below mentioned 9 modules of portal:
 - Consumer
 - Scheme Progress
 - Live Monitoring
 - Performance Analysis
 - Setting
 - Device Registration
 - User Role

Figure 18 MODULES

- Super Admin can register new State Implementing Agency (SIA) and Empanelled Agency (EA) in “Setting” module.

9. SETTING MODULE

- New Empanelled Agency & State Implementing Agency can be registered in “Setting” module.

➤ Navigation Step :-

1. Sign in on the State SEDM Portal
2. Click on the Setting Module

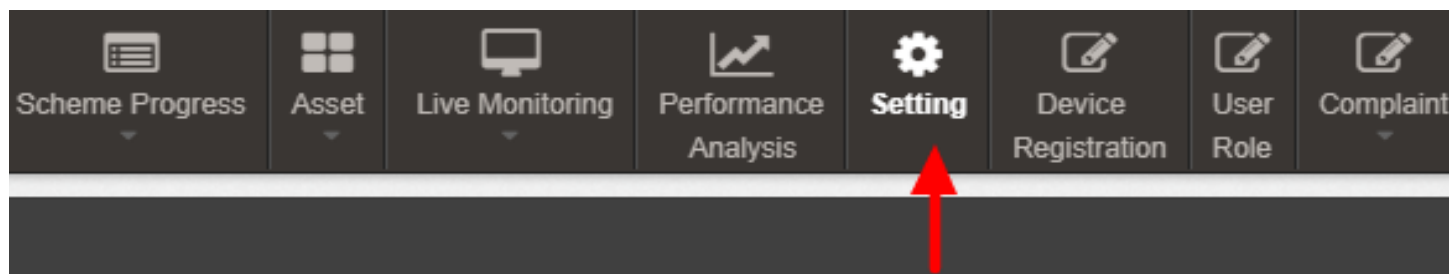

Figure 19 SETTING MODULE

9.1. REGISTRATION OF DISCOM

- Super Admin can register DISCOM by clicking on “DISCOM” tab as pointed in below Figure 19.

➤ Navigation Step :-

1. Sign in on the State SEDM Portal
2. Click on the Setting Module
3. Click on DISCOM

- After filling all the details, user has to click on the “Save” button (highlighted in red in Figure 24) to register New taluka
- After registering circle code and Division Code , Subdivision name can now create new subdivision

10 USER ROLE MANAGEMENT

- User Role Management module facilitates the creation of users of SIA with assignment of roles.
- Furthermore, it also provides the functionality to the Organization Admin of registering the new users of the corresponding Organization with access rights.
- After registering the Discom/SIA and Taluka, Super Admin can now register new users and assign roles through User Role module.

Figure 26 USER ROLE MODULE

10.1 REGISTER NEW USER

10.1 Register New User

- To register new user, Super Admin has to click on the “Add User” button (pointed in below Figure 26).

The screenshot displays the 'User Management' interface. At the top, there is a navigation bar with icons for HOME, Consumer, Scheme Progress, Live Monitoring, Setting, Device Registration, and User Role. The 'User Role' icon is highlighted. In the top right corner, there is a language dropdown set to 'English' and the IntelliSCADA logo. Below the navigation bar, the 'User Management' section features a search input field and a 'Show 100 entries' dropdown. The main content is a table with the following data:

Delete	Change Password	Assign Farmer Rights	Assign Module Rights	Department	User Name	First Name	Last Name	Designation	Email	Contact Details	Access Type	Primary Role
				Sri Savitir Solar pvt Ltd	user_2	sri	s		ari@gmail.com	6358894270	Portal	OrganizationAdmin
				Junna Solar Systems Pvt Ltd	user_1	epc1	e		user@gmail.com	8456521210	Portal	OrganizationAdmin
				KREDL	kaadmin	kaadmin	kaadmin	Manager	kaadmin@gmail.com	9768465733	Portal	SuperAdmin
				Junna Solar Systems Pvt Ltd	junnaolar	Rajaeakar	Reddy	manager	junnasolar@gmail.com	7680838911	Portal	OrganizationAdmin
				Sri Savitir Solar pvt Ltd	savitir	Ramesh	AV	Manager	savitir@gmail.com	9876463364	Portal	OrganizationAdmin

At the bottom of the table, it says 'Showing 1 to 5 of 5 entries'.

Figure 27 ADD USER BUTTON ON USER ROLE DASHBOARD

- To register new user, user has to enter two types of following details :
 - User Information
 - Module Roles

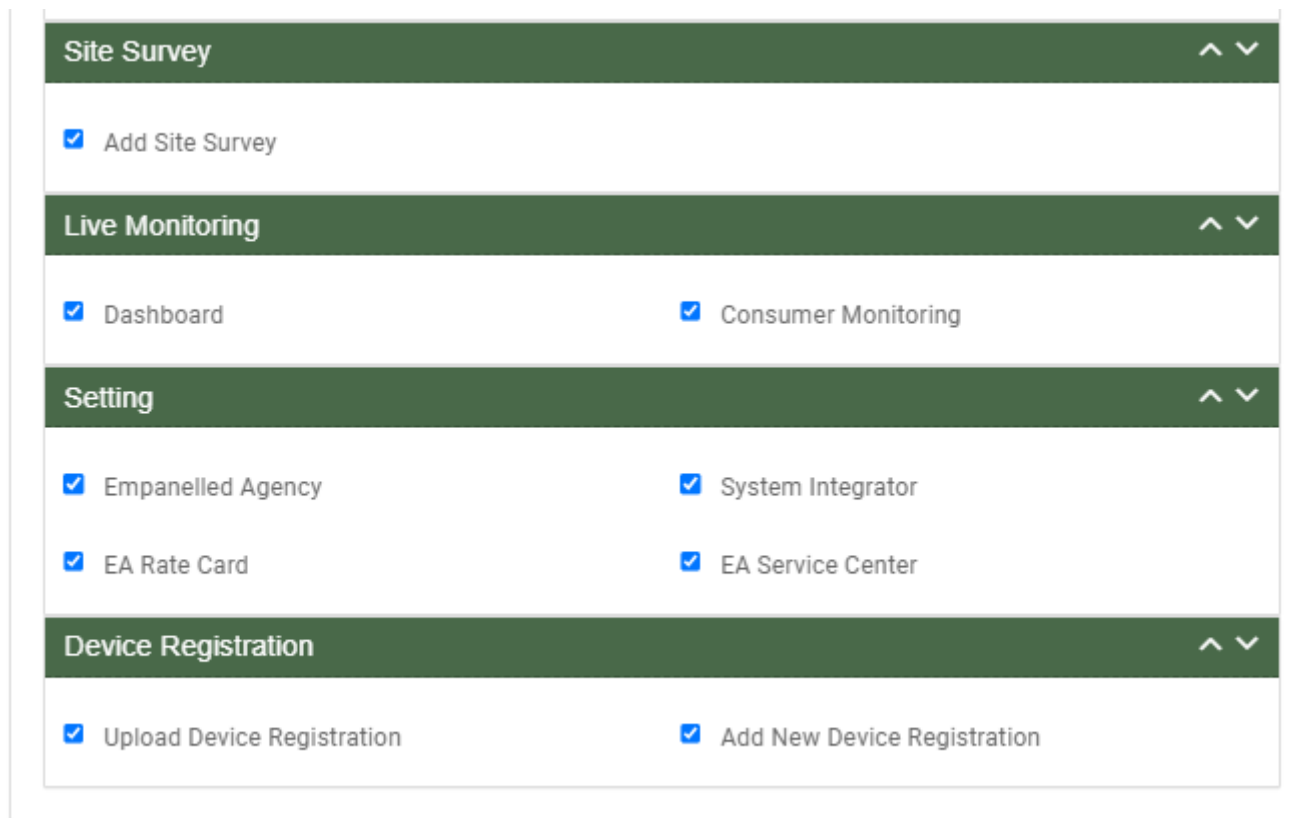

Figure 31 CONSUMER FUNCTIONALITY

Table 11 CONSUMER FUNCTIONALITY

Consumer Functionality Name	Description
No of Solar Plants	It gives information about how many solar plants are planted
Plant Location	This gives us information about location of plant
LOA award	Selecting this Functionality will provide the access to update issue of LOA to the beneficiary/developer.
PPA signing	Selecting this Functionality will provide the access to update the PPA agreement between the developer and the DISCOM/SIA

Financial Clearance	Selecting this Functionality will provide the access to update the Financial Clearance between beneficiary/developer and DISCOM/SIA
Installation & Completion	This entry demonstrates that at which date solar plant is established
Electrical Inspector and Certificate received	This entry demonstrates that inspection is done and district officer gets certificate
Export meter connected & Permission received	Meter is connected with plant and permission received .
Testing, Commissioning, & synchronization	This functionality provides updates about testing, commissioning and synced data
Plant Charged	Plant is charged
Go live with RMS Data	District officer can get information of live data
On Hold	This step demonstrates that application is on hold

❖ Scheme Progress

Figure 32 SCHEME PROGRESS FUNCTIONALITY

❖ Site Survey Functionality

Figure 34 SITE SURVEY FUNCTIONALITY

TABLE 12 SITE SURVEY FUNCTIONALITY

Site Survey Functionality Name	Description
Add Site Survey	Selecting this Functionality will provide the access to Site Survey Mobile Application update the consumer/farmer application status "Site Survey" via Site Survey.

FIGURE 32 ASSET FUNCTIONALITY

❖ Live Monitoring Functionality

Figure 35 LIVE MONITORING FUNCTIONALITY

TABLE 13 LIVE MONITORING FUNCTIONALITY

Live Monitoring Functionality Name	Description
Dashboard	Selecting this Functionality will provide the access Live Monitoring Dashboard
Consumer Monitoring	Selecting this Functionality will provide the access of consumer monitoring in which user can monitor RMS data, map individual Asset Serial no. and IMEI nos., update I&C Done status and I&C Verification and Insurance

❖ **Device registration Functionality**

Figure 36 DEVICE REGISTRATION FUNCTIONALITY

TABLE 14 DEVICE REGISTRATION FUNCTIONALITY

Device Registration Functionality Name	Description
Upload Device Registration	Selecting this Functionality will provide the access to register Device IMEI numbers in bulk by uploading a CSV file.
Add New Device Registration	Selecting this Functionality will provide the access to register a Device IMEI number.

- After selection of the Functionality, Super Admin can create new user role and can also provide access to modules and Functionality to the new user. (Refer “User Role” drop down in New User Registration form - **Error! Reference source not found.**)

Figure 39 ASSIGN FARMER RIGHTS

- By moving beneficiary from Non-Selected Applications to Selected Applications, that particular user will get the access to view the RMS data of the selected Applications.
- User can update the module and Functionality access of any particular existing user by clicking on the user icon. (highlighted in green in Figure 35)

- After clicking on user icon, a Screen will occur for the editing the access of the Functionality. (as shown in

Figure 40 USER ROLE MODULE SELECTION SCREEN

11 MASTER SETTINGS (CONFIGURATIONS)

- SIA with Super Admin credentials can add or update several following settings :
 - Empanelled Agency
 - System Integrator
 - EA rate card
 - EA Service center
- These updates can be performed in the “Setting” module.

➤ Navigation Step :-

1. Sign in on the State SEDM Portal
2. Click on the Setting Module

11.2. EA RATE CARD

- EA Rate Card includes Central/State/Farmer Contribution as the subsidy to the Farmer's total cost of the Solar Pump.
- It gives information of the total cost of the Solar Pump in "Rs." and in "%" divided between Central Government, State Government and the Consumer/Farmer.
- Super Admin can update these information in the "Setting" module.

➤ Navigation Step :-

1. Sign in on the State SEDM Portal
2. Click on the Setting Module
3. Click on EA Rate Card Tab

- After filling all the details, user has to click on the “Save” button (highlighted in red in above Figure 46) to register New EA Store Sub Location.

11.1 REGISTRATION OF MANUFACTURER DETAILS

- Super Admin can register Manufacturer Details by clicking on “Manufacturer” tab as pointed in below Figure 47.
- Manufacturer registration serves the purpose as the manufacturer of the assets i.e. Solar Pump, Solar Panel, Pump Controller, Structure, RMS, etc.
- Manufacturer need to be added while creation of Asset Test Report along with the product details which will be further used in Lot creation. (click [here](#) to know more)

➤ Navigation Step :-

1. Sign in on the State SEDM Portal
2. Click on the Setting Module
3. Click on Manufacturer Tab

Figure 66 NEW TENDER CHECKLIST DETAILS

Table 23 TENDER CHECKLIST TEMPLATE REGISTRATION FIELDS DESCRIPTION

Field	Input	Drop Down & Check Box Options	Mandatory Field	Sample Values	Description
Label Name	Text	-	-	Constructional requirement/features, General Requirements, Design features.	Identifier name to be given against checklist item
Sequence	Numerical	-	✓	6	Input the sequence number where this checklist item is to be displayed. Display of the checklist item shall be ordered by sequence
Field Type	Drop Down	- Boolean - String - Drop Down - Number	-	Boolean	Selection of the relevant field type of the tender checklist template

Ideal Response	Text	-	-	Yes	Input the ideal response value expected against this checklist item
Sign	Drop Down	-	-	-	Select the sign as per expectation of ideal response
Tender Clause	Numerical	-	✓	5.1	Reference tender clause of corresponding tender
Additional required Input details against checklist item	Check Box	- Product Document Attachment - Third Party Certificate - Deviation Declaration - Standard or Compliance Declaration	-	- Third Certificate - Standard or Compliance Declaration	User need to submit corresponding documents/declaration as per selection

11.4.6 After filling all the details, user has to click on the “Save” button (highlighted in red in above) to register New TenderChecklist Template.

11.5 AUDIT TRAIL

- 11.5.1 Audit Trail serves the purpose to store the details of the person that make last update on State SEDM Platform.
- 11.5.2 SIA with Super Admin credentials can view the audit trail in “Setting” Menu.

➤ Navigation Step :-

1. Sign in on the State SEDM Portal
2. Click on the Setting Module
3. Click on Audit Tab

Figure 67 AUDIT TAB

11.5.3 By clicking on the Audit tab, the screen along with three filters i.e. Select District, Select Space (modules) and date range will appear as shown in below Figure 65.

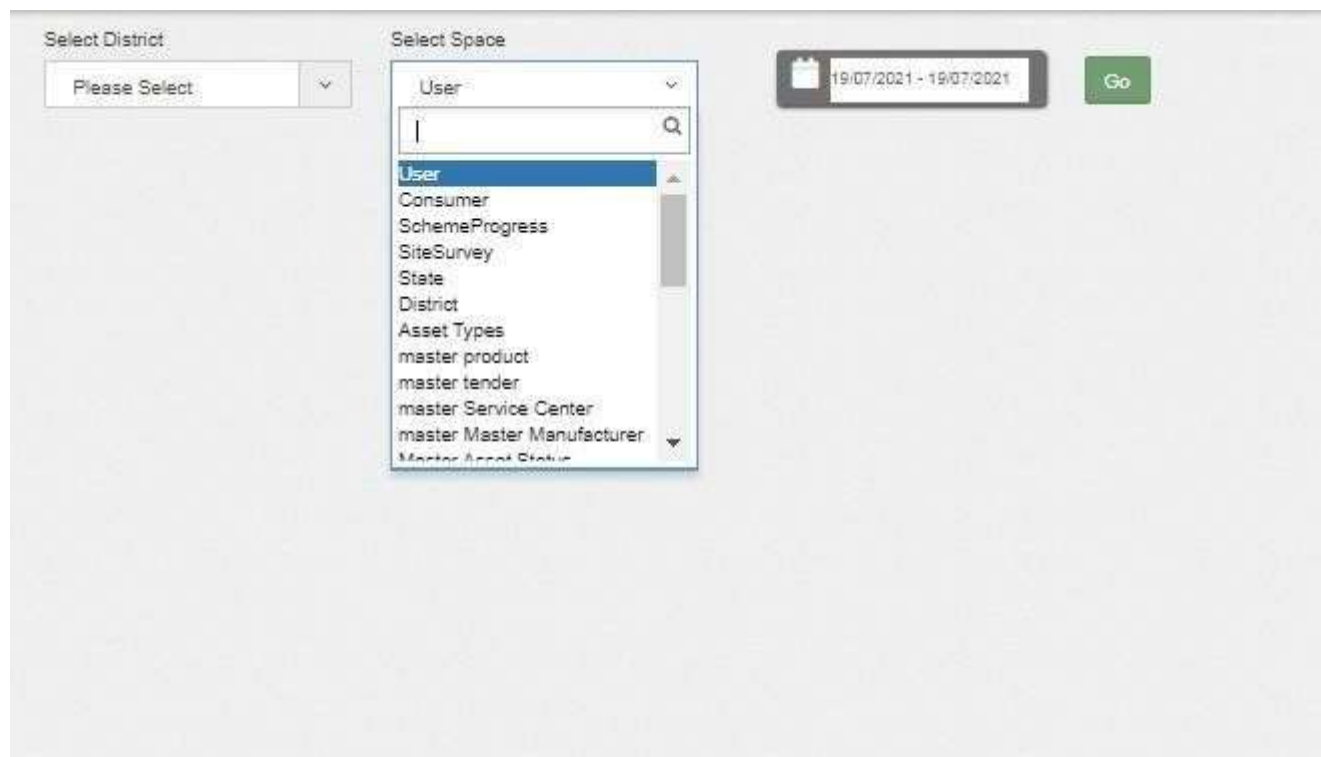

Figure 68 AUDIT TAB FILTERS

11.5.4 By selecting any particular district and Space (modules) against the selected district and date range, Super Admin can get the details about last updates made in particular selected Space (module) as shown in below Figure 66.

The screenshot shows the 'Audit Trail' dashboard. At the top, there are filters for 'Select District' (empty), 'Select Space' (set to 'User'), and a date range '19/07/2021 - 19/07/2021' with a 'Go' button. Below the filters is a search bar (highlighted in red) and an 'Export' button (highlighted in blue). The main area contains a table with the following columns: Space, SpacerefId, Action, Action Date, Action By, Description, and Component. The table lists ten entries, all with 'Action' set to 'Created' and 'Action Date' set to '2021-07-19 09:07:00'. The 'Action By' column shows phone numbers, and the 'Description' column shows 'SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1'. The 'Component' column shows 'b'.

Space	SpacerefId	Action	Action Date	Action By	Description	Component
SchemeProgress	7404417	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	12861510	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	8039159	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	13868505	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	6806333	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	8635290	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	13315190	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	15001472	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b
SchemeProgress	5903169	Created	2021-07-19 09:07:00	9416498347	SchemeProgress Created With TimeStamp: -2021-07-19 00:00:00, StatusCode: -12, SubStatusCode: --1	b

Figure 69 AUDIT DASHBOARD (APPLIED FILTERS)

11.5.5 As shown in above Figure 66, filtered dashboard by selecting District : Amritsar, Space : Scheme Progress and date range, one can find details like the person's registered username (shown as phone numbers in above Figure 66) who had made updates in scheme progress, the date on which updates was made, the action he made while updating Scheme Progress, etc.

11.5.6 User can search for specific detail by entering input in "Search" box. (highlighted in red in Figure 66)

11.5.7 User can download a csv file (refer Figure 67) of filtered Audit details by clicking on export button. (highlighted in blue in Figure 66)

11.6 APPLICATION WORKFLOW STAGES

11.6 List of Responsible Users Of TN SEDM Portal who will be responsible for the below mentioned Workflow Stages :

- Sub Division Officer (SDN)
- Head Officer (HO)
- Empanelled Agency (EA)

Table 24 FARMER APPLICATION WORKFLOW STAGES

Consumer Functionality Name	Description	Responsibility
No of Solar Plants	It gives information about how many solar plants are planted	SIA/SNA/DISCOM

Plant Location	This gives us information about location of plant	SIA/SNA/DISCOM
LOA award	Selecting this Functionality will provide the access to update issue of LOA to the beneficiary/developer.	SIA/SNA/DISCOM
PPA signing	Selecting this Functionality will provide the access to update the PPA agreement between the developer and the DISCOM/SIA	SIA/SNA/DISCOM
Financial Clearance	Selecting this Functionality will provide the access to update the Financial Clearance between beneficiary/developer and DISCOM/SIA	SIA/SNA/DISCOM
Installation & Completion	This entry demonstrates that at which date solar plant is established	SIA/SNA/DISCOM
Electrical Inspector and Certificate received	This entry demonstrates that inspection is done and district officer gets certificate	SIA/SNA/DISCOM
Export meter connected & Permission received	Meter is connected with plant and permission received .	SIA/SNA/DISCOM
Testing, Commissioning, & synchronization	This functionality provides updates about testing, commissioning and synced data	SIA/SNA/DISCOM
Plant Charged	Plant is charged	SIA/SNA/DISCOM
Go live with RMS Data	District officer can get information of live data	SIA/SNA/DISCOM
On Hold	This step demonstrates that application is on hold	SIA/SNA/DISCOM

12 CONSUMER/FARMER APPLICATION REGISTRATION

12.1 The Consumer/Farmer Management module of SEDM is focused towards Consumer/Farmer registration, setting up of Consumer/Farmer profile and to provide the application updates, all at one place

12.2 Below are the authorized users for Application registration :

- State Implementing Agency (SIA)
 - o Sub Division Officer (SDN)
 - o Head Officer (HO)
 - o DISCOM
 - o SIA/SNA

➤ Navigation Steps for Consumer/Farmer application Registration :-

1. Sign in on the State SEDM Portal
2. Click on the “Details” on Consumer Module as shown in below Figure 68 Click on the “Add Farmer” button

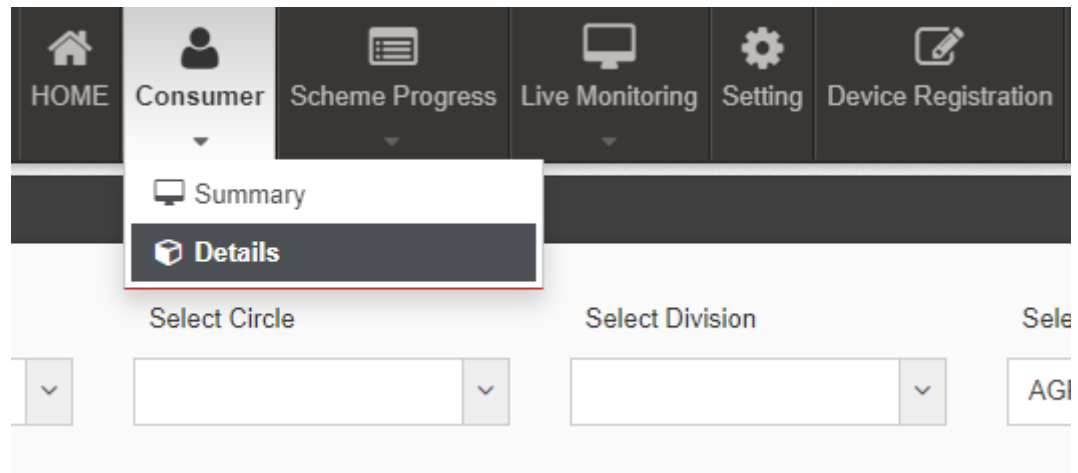

Figure 71 DETAILS

- Select the discom from where the new farmer belongs from and click on the “GO” button as shown in the below Figure 69 and Figure 70

Figure 72 SELECT DISCOM

Figure 73 ADD FARMER BUTTON

- Click on the “Add Plant” button as highlighted in red in the above Figure 71.

Figure 79 OTHER DETAILS

The screenshot shows the 'Plant List' dashboard. At the top, there are navigation tabs: HOME, Consumer, Scheme Progress, Live Monitoring, Setting, Device Registration, and User Role. The 'Consumer' tab is active. On the right, there is a language dropdown set to 'English' and the 'IntelliSCADA' logo. Below the navigation, there are filters for 'Select Discom', 'Select Circle', 'Select Division', 'Select Sub Division', and 'Select Sub Station', each with a 'Please Select' dropdown and a 'GO' button. Below the filters, there are options for 'CSV', 'Excel', a search bar, and dropdowns for 'All Registration Type' and 'All'. The main table has the following columns: Scheme Progress Details, Update Status, Plant Location, Documents, Application Status, SPG or Developer No, SPG or Developer Name, Registration Type, Registration Category, Device Type, Feeder Level Plant Mode, Generation Tariff, Implementation Agency, Rating of Feeder, Length Of 11 KV Line, Length Of CT Line, and Multi F. The table contains one entry with the following data: Scheme Progress Details (LOA award, PPA signing, Financial Clearance buttons), Update Status (Feasible Applications), Plant Location (icon), Documents (Documents button), SPG or Developer No (34532), SPG or Developer Name (test), Registration Type (PLANT), Registration Category, Device Type (FeederIOT), Feeder Level Plant Mode, Generation Tariff, Implementation Agency (RESCO), Rating of Feeder, Length Of 11 KV Line (KREDL), Length Of CT Line (5), and Multi F. The footer shows 'Showing 1 to 1 of 1 entries' and navigation buttons for 'Previous', '1', and 'Next'.

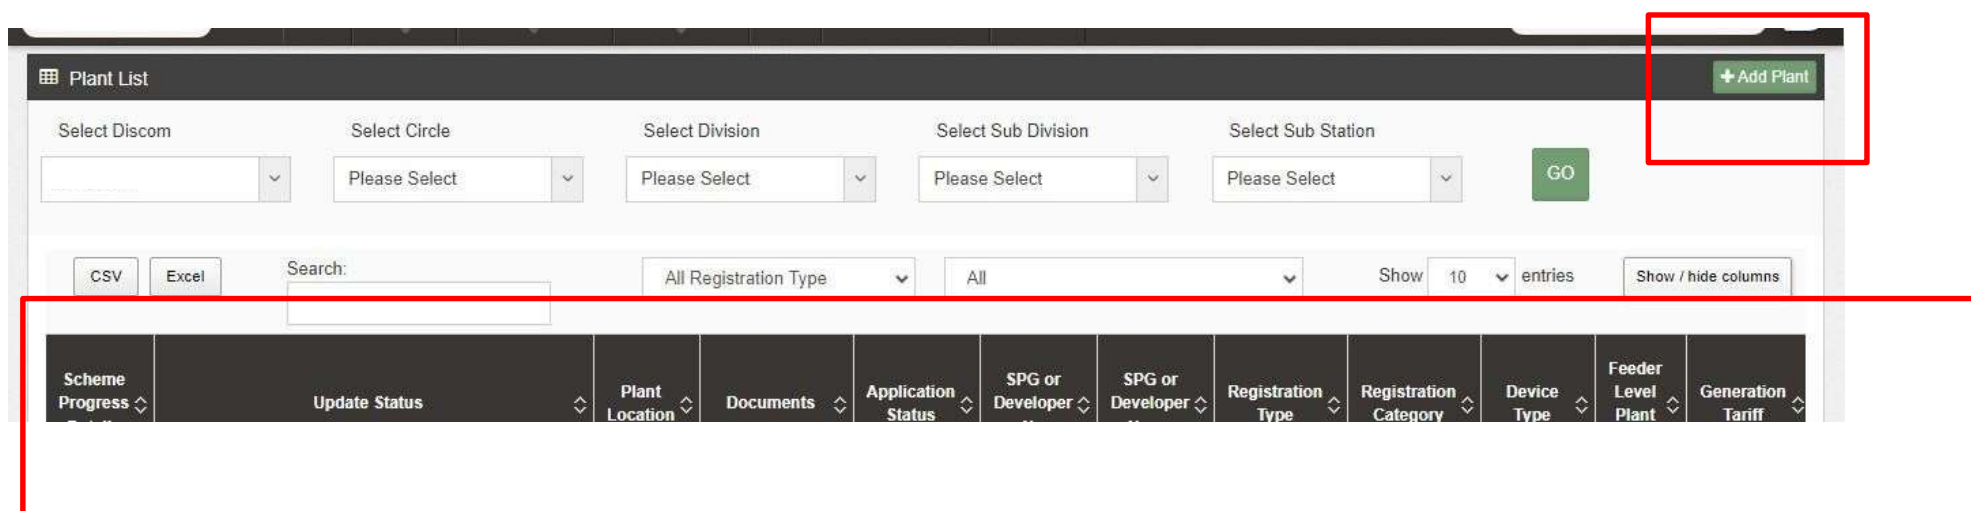

Figure 80 DETAIL DASHBOARD

- After application registration, new application will be entered in the consumer/farmer details dashboard as fresh entry (as highlighted in red above Figure 83) whose application scheme progress is yet to commence.
- Details dashboard consists following data columns :

This screenshot is identical to Figure 80, showing the 'Plant List' dashboard. A red box highlights the 'Update Status' column and its content 'Feasible Applications' in the first row of the table.

Figure 81 CONSUMER DETAIL DATA COLUMNS (I)

➤ Consumer Details Dashboard Explanation

The “Add Plant” button highlighted in red box can be used to register a new plant application

- Use filters highlighted in blue box to get the list of a particular application as per the requirement.
- After selecting options in the filter click on “GO” button highlighted in green box to apply the filters.
- To track or see the progress/record of any particular application click on icon under “Scheme progress Details” highlighted in purple box in first column..
- To view or download the documents click on blue button “Documents” highlighted in BLUE box under Documents column infourth column.

Figure 82 CONSUMER/FARMER DETAIL DASHBOARD

- To view the complete details of the applicant click on the “Farmer name” highlighted in purple box under Farmer Name in ninthcolumn.

The screenshot displays the 'Plant List' dashboard. At the top, there are filters for 'Select Discom', 'Select Circle', 'Select Division', 'Select Sub Division', and 'Select Sub Station', each with a dropdown menu and a 'GO' button. Below the filters, there are search and filter options, including a search box, 'All Registration Type' dropdown, and 'All' dropdown. The main table has columns for 'Scheme Progress Details', 'Update Status', 'Plant Location', 'Documents', 'Application Status', 'SPG or Developer No', 'SPG or Developer Name', 'Registration Type', 'Registration Category', 'Device Type', 'Feeder Level Plant Mode', 'Generation Tariff', 'Implementation Agency', 'Rating of Feeder', 'Length Of 11 KV Line', 'Length Of CT Line', and 'Multi'. The 'Scheme Progress Details' column is expanded to show 'LOA award', 'PPA signing', and 'Financial Clearance'. The 'Documents' column has a 'Documents' button. The 'Application Status' column shows 'Feasible Applications'. The 'SPG or Developer No' column shows '34532'. The 'SPG or Developer Name' column shows 'test'. The 'Registration Type' column shows 'PLANT'. The 'Device Type' column shows 'FeederIOT'. The 'Implementation Agency' column shows 'RESCO'. The 'Length Of 11 KV Line' column shows 'KREDL'. The 'Length Of CT Line' column shows '5'. At the bottom, there is a pagination bar showing 'Showing 1 to 1 of 1 entries' and 'Previous 1 Next'.

Figure 83 DETAILS DASHBOARD EXCEL FILE (II)

- The user can download the displayed data in three formats “CSV, Excel and PDF” highlighted in red box.
- Figure 86, by clicking onto the orange highlighted icon first column of Consumer Details dashboard, the user can view the chronological data for scheme progress details of any individual farmer. (as shown in below Figure 89)

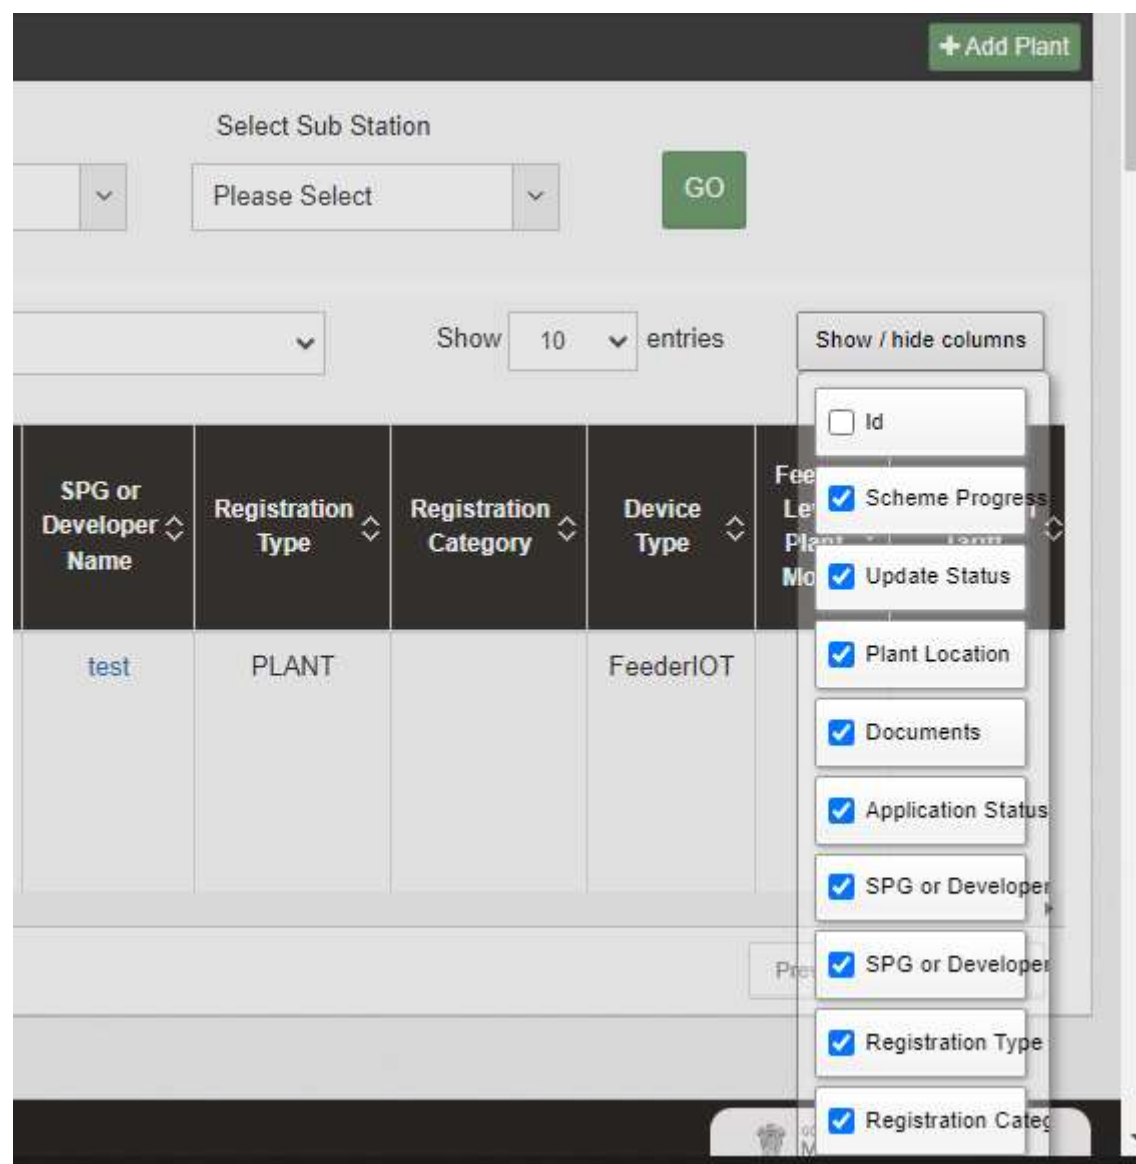

Figure 84 show and hide button

- Similarly, by clicking on the icon (highlighted in pink in Figure 86) in the second column, the user can view the site survey details of the consumer/farmer as well as take action against individual farmer's application and also can upload Site Photographs and Farmer Consent Form.

FIGURE 93 REASON FOR APPLICATION HOLD/REJECT

1. Click on “LOA Award“ in the update status

Scheme Progress Details	Update Status	Plant Location	Documents	Application Status	SPG or Developer No	SPG or Developer Name	Registration Type	Registration Category	Device Type	Feeder Level Plant Mode	Generation Tariff
	<div style="border: 2px solid red; padding: 2px;">LOA award</div> <div style="padding: 2px;">PPA signing</div> <div style="padding: 2px;">Financial Clearance</div>		Documents	Feasible Applications	34532	test	PLANT		FeederIOT		

Showing 1 to 1 of 1 entries

- In Details dashboard as shown in below figure, Consumer/Farmer details are displayed along with the blue buttons of Status in third column.

12.4 PPA Signing

- Below are the authorized users for Order Placed to EA :
 - State Implementing Agency (SIA)
 - o Sub Division Officer (SDN)
 - o Head Officer (HO)
- Navigation Steps to change application status PPA Signing:-
 - 19 Sign in on the State SEDM Portal
 - 20 Click on the “Details” on Consumer Module as shown in below Figure 96 Details

- After LOA Award, authorized users has to change the status “PPA Signing”.
- In Details dashboard as shown in below figure, Consumer/Farmer details are displayed along with the blue buttons of Status in second column.

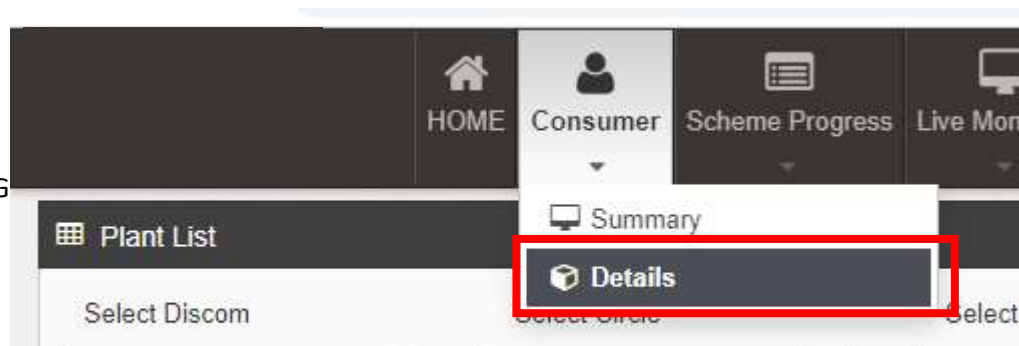

FIGURE 96 DETAILS

13 LIVE MONITORING

- The Live Monitoring Module on SEDM Platform gives the users a dynamic functionality to monitor and assess the scheme statistics as well as the functioning of the solar plant/pump efficiently, all of this from a single window.
- Navigation Steps: -
 - Sign in on the State SEDM Portal
 - Click on the 'Live Monitoring' option on the Title Bar of the SEDM Portal Dashboard
 - Navigate "Dashboard" (as shown in Figure 102)
- Sign In >> Live Monitoring >> Dashboard

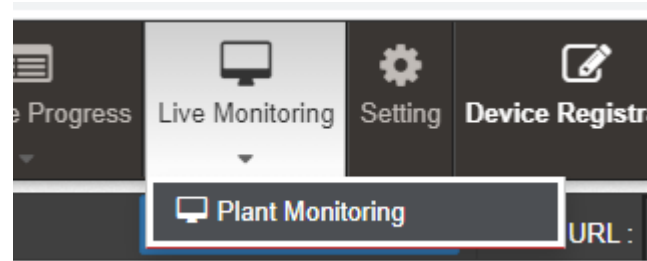

Figure 95 LIVE MONITORING DASHBOARD OPTION

The screenshot displays the 'Live Monitoring' dashboard. At the top, there is a navigation bar with icons for HOME, Consumer, Scheme Progress, Live Monitoring (highlighted with a red box), Setting, Device Registration, and User Role. The IntelliSCADA logo is visible on the right. Below the navigation bar, the page title is 'Individual Asset & IMEI Mapping'. There are two search input fields: 'IMEI No:' and 'Solar Plant No:', each with a 'GO' button. Below these are two dropdown menus: 'Select District' (set to BAGALKOTE) and 'Select Status' (set to PPA Signing), with a 'GO' button. A breadcrumb trail shows 'ConsumerList' > 'Consumer Info' > 'RealTime' > 'History'. There are 'CSV' and 'Excel' buttons, a search box, and a 'Show / hide columns' button. A table with 9 columns is displayed below. The columns are: S.No., SPG/DEVELOPER Name, Mobile No., Location District, Latitude, Longitude, Spv Capacity As Per Norms, Inverter Capacity As Per Norms, and Tariff Of Access Generation. The table contains three rows of data.

S.No.	SPG/DEVELOPER Name	Mobile No.	Location District	Latitude	Longitude	Spv Capacity As Per Norms	Inverter Capacity As Per Norms	Tariff Of Access Generation
1	BALDEV SINGH	9466831358	BAGALKOTE	23.22	25.36	520	750	400
2	SUKHWINDER SINGH	8059554246	BAGALKOTE	30.63	31.53	1000	1300	900
3	TUSHAR RANDHAWA	8901260497	BAGALKOTE	21.3386	73.783	2000	2500	1900

Figure 96 LIVE MONITORING

FIGURE 103 LIVE MONITORING DASHBOARD

- Last Updated Time Stamp (highlighted in yellow in above Figure 103)

It is the start date when the system became operational.

- This time stamp updates every 15 minutes in Live Monitoring Dashboard on State SEDM Platform and consequently, data of live monitoring dashboard gets updated every 15 minutes.
- **Empanelled Agency Filter** (highlighted in blue in above Figure 103)
 - User can view live monitoring dashboard data of all empanelled agencies or else, can view data empanelled agency wise also by filtering out empanelled agency.
- **Consumer Details** (highlighted in red in above Figure 103)
 - By clicking on the “Consumer Details” button, user can view a screen where the consumer details as well as their corresponding RMS details (last updated) will be displayed and can also edit consumer’s RMS latitude-longitude in this screen only just for once.

Figure 97 LIVE MONITORING DASHBOARD

- User can change RMS latitude and longitude by clicking on edit icon (highlighted in red in above Figure 104) and in below Figure 106 is shown how to change the RMS latitude and longitude.

	First RMS LatLong	Pump Capacity (HP)
16	Latitude <input type="text" value="28.99038"/> Longitude <input type="text" value="76.0423"/> <input type="button" value="Save"/>	10
83	Lat:22.4914	7.5

Figure 98 UPDATE RMS LATITUDE - LONGITUDE

- After entering new RMS latitude and longitude, user has to click on the save icon (highlighted in red in Figure 103) to update the RMS latitude-longitude.

NOTE: RMS Latitude-Longitude can be updated only **once** and not more than that.

- Below are the parameters covered in Live monitoring dashboard (highlighted in green in above Figure 103) :
 - 1. Total Standalone Pumps**
 - It reflects the total numbers of applications whose application status is updated to “Installation & Verification done”.
 - 2. Total Pump Capacity**
 - It reflects the total sum of capacity (HP) of total standalone pumps.
 - 3. Total Module Capacity**
 - It reflects the total sum of SPV capacity of total standalone pumps. (SPV Capacity as per EA rate card, click [here](#) to know more)
 - 4. Total RMS Integrated Pumps**
 - It reflects the total number of pumps who had sent RMS data on the portal for the first time.
 - 5. Total Solar Generation**
 - It reflects the total cumulative Solar Generation of RMS Integrated pumps till today. (in terms of MUs i.e. Million Units)
 - 6. Total Water Discharge**
 - It reflects the total cumulative kilolitres of Water discharged from RMS Integrated pumps till today.
 - 7. Total Pump Run Hours**
 - It reflects the total cumulative hours that RMS Integrated pumps ran till today.
 - 8. CO2 Reduction (TON)**
 - CO2
 - 9. Avg. Solar Generation per Pump**
 - Formula : Total Solar Generation / Total RMS Integrated pumps

10. Avg. Water Discharge per Pump

- Formula : Total Water Discharge / Total RMS Integrated pumps

11. Avg. Run Hours

- Formula : Total Pump Run Hours / Total RMS Integrated pumps

- Live Monitoring has three different coloured boxes (Red, Green and Blue as shown in Figure 103) are explained in below Table 35.

Table 28 LIVE MONITORING – EXPLANATION OF THREE BOXES

Box Name (Colour)	Sub Status	Description	Refer Figure 103 for below figures as an example
Communication Status (Red Box)	RMS Integrated Pumps	Displays Total RMS Integrated Pumps out of Total Pumps whose current status is Installation & Commission Done	7808 (Total RMS Integrated pumps) / 12614 (Total Pumps having current status Installation & Commission)
	Invalid RMS Integrated Pumps	This sub status considers standard time of Total Pump running hours as 12 hours. If any pump from total RMS Integrated pumps runs for more than standard hours than it falls in Invalid category	1525 (Pumps ran more than standard hours) / 7808 (Total RMS Integrated pumps)
	Connected Since Last 30 Mins (LIVE)	Displays Total no. of Pumps that are connected from last 30 mins out of Total RMS Integrated pumps	2033 (Total Pumps connected since last 30 minutes) / 7808 (Total RMS Integrated pumps)
	Disconnected	Displays Total no. of Pumps that are disconnected out of Total RMS Integrated pumps	4250 (Total disconnected Pumps) / 7808 (Total RMS Integrated pumps)
	Location Matched	Displays Total no. of pumps whose latitude-longitude (captured while Site Survey) matched with the latitude-longitude that RMS had sent along with the data for the first time on the portal out of Total RMS Integrated pumps	2956 (matched Latitude-Longitude) / 7808 (Total RMS Integrated pumps)
	Location Mismatched	Displays Total no. of pumps whose latitude-longitude (captured while Site Survey) mismatched with the latitude-longitude that RMS had sent along with the data for the first time on the portal out of Total RMS Integrated pumps	3327 (mismatched Latitude-Longitude) / 7808 (Total RMS Integrated pumps)
Operation Status of Live Pumps (Green Box)	Pumps in Run Mode	Displays Total no. of pumps that are currently running out of total no. of pumps that are connected since 30 minutes (sub status given in red box)	542 (Pumps currently running) / 2033 (Pumps connected since last 30 minutes)
	Pumps in Stop Mode	Displays Total no. of pumps that are currently not running i.e. stopped out of total no. of pumps that are connected since 30 minutes (sub status given in red box)	1470 (Pumps currently stopped) / 2033 (Pumps connected since last 30 minutes)
	Pumps in Protected Mode	Displays total no. of pumps that falls in below shown four categories (highlighted in red in below Figure 107) out of total no. of pumps	21 (Invalid Pumps) / 2033 (Pumps connected since last 30 minutes)

		that are connected since 30 minutes (sub status given in red box)	
Utilization Factor for installed solar capacity (MV) (Blue Box)	Capacity Utilization Factor For Live Pumps (MV)	Displays total SPV capacity (MW) produced of total no. of pumps (currently in run mode - sub status given in green box) out of total SPV capacity as mentioned in the EA rate card (click here to know about SPV capacity as per EA rate card)	1.79 (total SPV capacity (MW) produced of total no. of running pumps) / 12.37 (total SPV capacity as mentioned in the EA rate card) 1.79 / 12.37 * 100 = 14.46 % (percentage shown in blue box of live monitoring dashboard in Figure 103)
	Avg. Solar Generation per Pump (KW) 542 (Pumps currently in run mode)	1.79 (total SPV capacity (MW) produced of total no. of running pumps) / 542 (Pumps currently in run mode) * 1000 (to convert value from MW into KW) = 3.30 KW	

Figure 99 INVALID PARAMETERS OF GREEN BOX OF LIVE MONITORING DASHBOARD

- Below are the brief points covered under map of Live Monitoring dashboard:
 - **Monitoring of Live Parameters on Dashboard with Map View**
 - **Navigation:**
 - It is possible to navigate from state to district to individual Consumer/Farmer on a single page in the map view.
 - At state and district level, summary of parameters are displayed in a pop-up window.
 - By clicking upon the green location icon on map (shown in Figure 103), a screen (refer) will open that covers the

following list of Important Parameters of particular district:

- **Standalone Solar Pumps**
 - o Total no. of Standalone Solar Pumps
 - o Total Pump Capacity (HP)
 - o Total Solar Module Capacity (Actual) (KW)
 - **RMS Integrated Pumps**
 - o Total no. of RMS Integrated Pumps
 - o Pumps in Run Mode
 - o Pumps in Stop Mode
 - o Pumps in Protection Mode
 - o Current Solar Capacity Utilization of Pump in Run Mode (KW)
 - **Indicators**
 - o Pump Run Hours
 - o Solar Generation (kWh)
 - o Water Discharged (Kiloliter)
-
- By clicking upon district name, user will get a broad view of selected district in which consumers/farmers of that district (in terms of green and red location icons, as shown in below will be displayed.
 - Green Icon (Live) - Consumer/Farmer's Solar Pump that is connected since 30 minutes.
 - Red Icon (Not Live) - Consumer/Farmer's Solar Pump that is disconnected.
 - User can filter out the view by selecting any of the three status of Solar Pump.
 - Also user can navigate back to the state view by clicking on state name.

14 SUMMARY

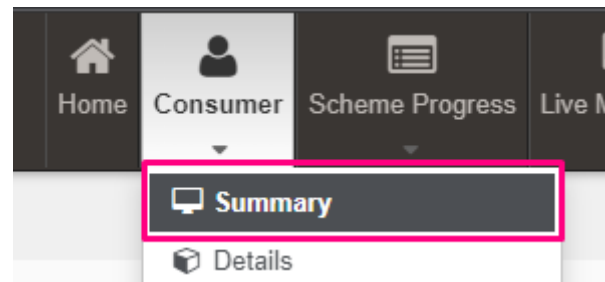

- Under the 'Consumer' tab title bar, there are two options in the drop-down menu. These options provide different views of application tracking and analysis.
- The first option is 'Summary' provides an overall Consumer Management Summary. This dashboard displays an organised flowchart which helps user to understand different stages of application processing and to view details about any specific EA if needed.

➤ Navigation Steps: -

4. Sign in on the State SEDM Portal
5. Click on the 'Consumer/Farmer' option on the Title Bar of the SEDM Portal Dashboard

6. Click on the 'Summary' option from the drop-down menu

➤ Go to Consumer and click on Summary

• Sign In >> Consumer >> Summary

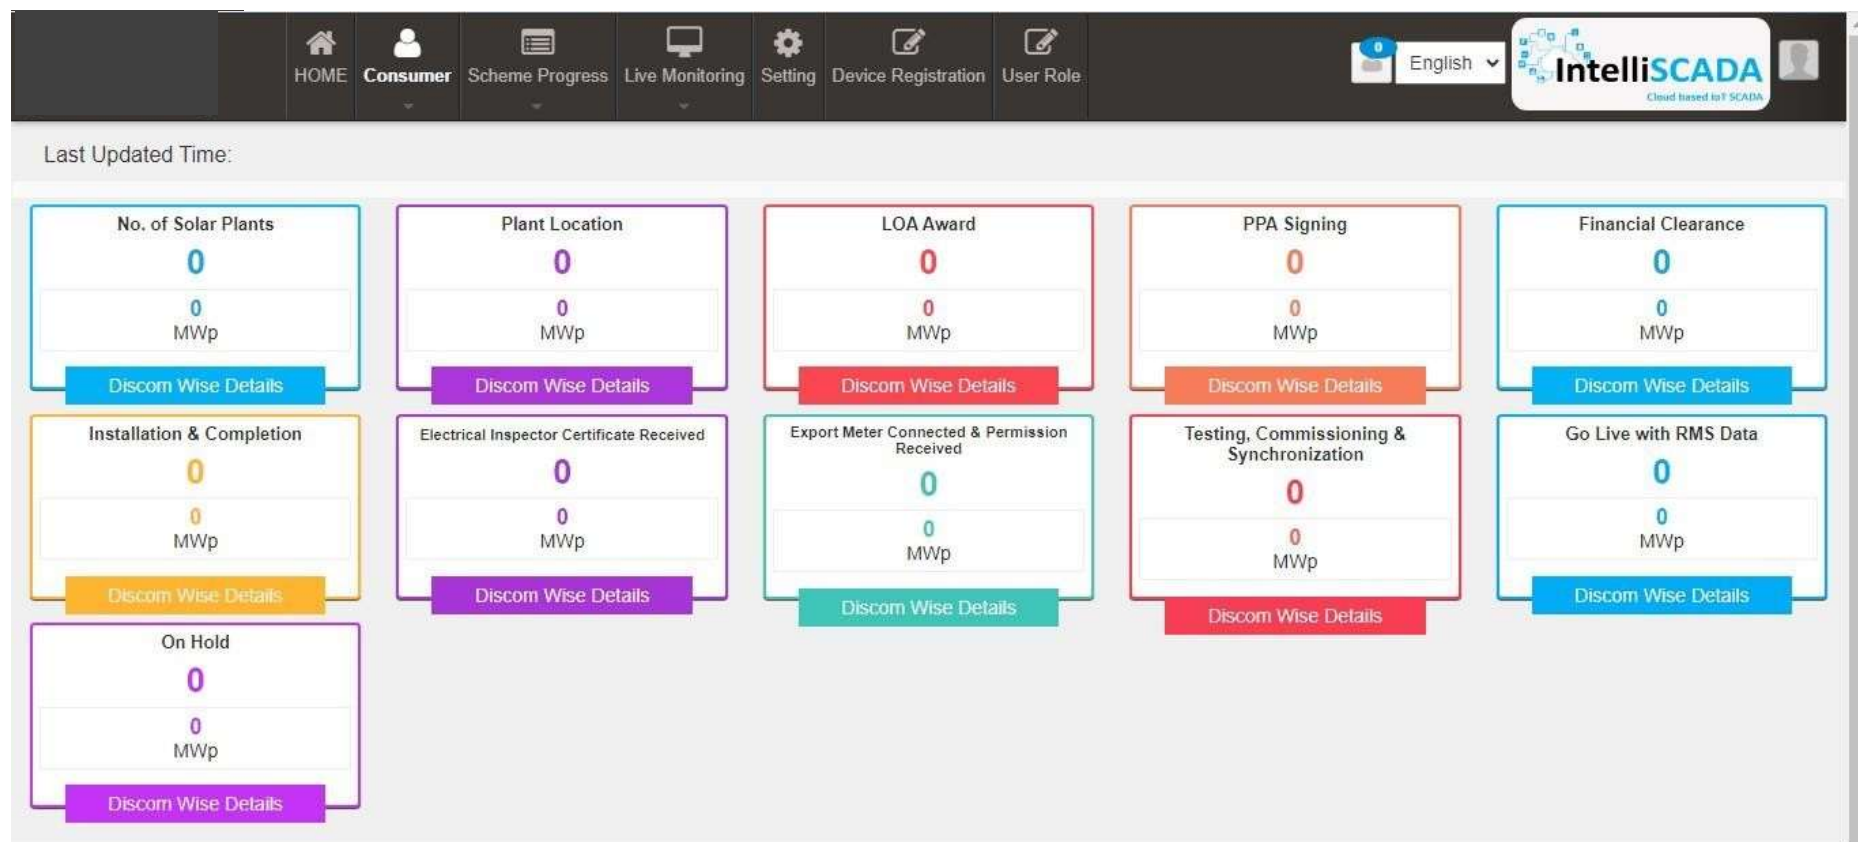

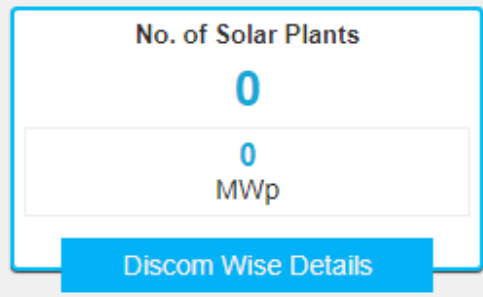

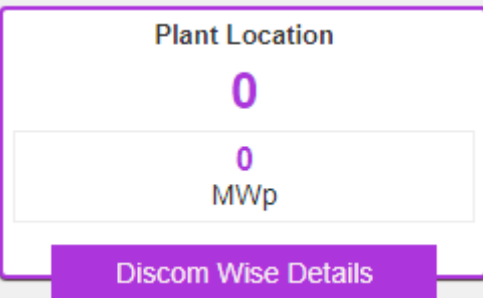

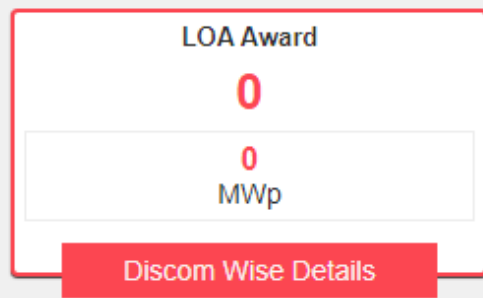

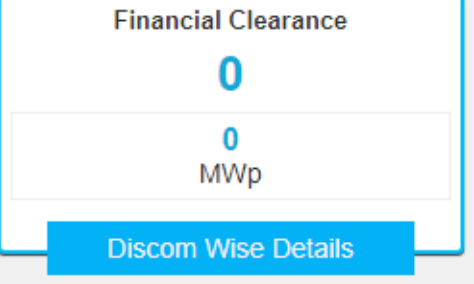

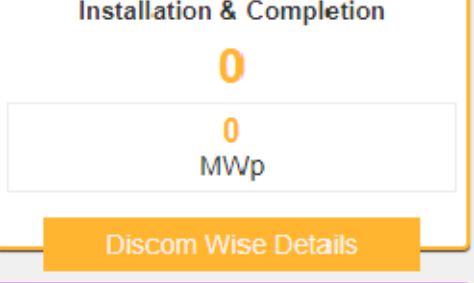

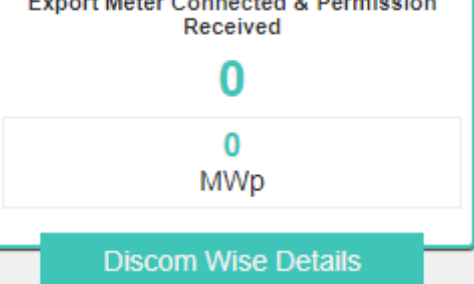

Figure 100 CONSUMER/FARMER MANAGEMENT SUMMARY OPTION SELECTED ON CONSUMER/FARMER DASHBOARD

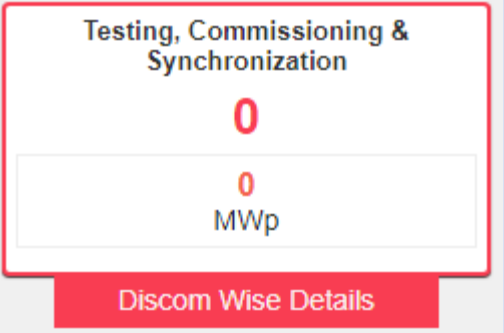

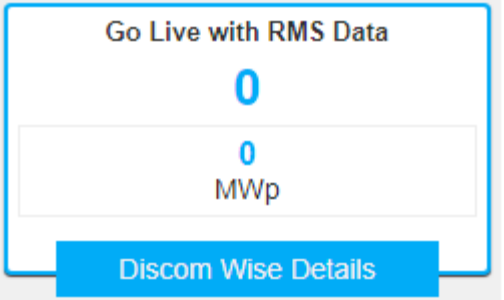

➤ **Description of each and every coloured boxes of application status as shown in the above image**

- Count of all application status will be incremented according to the status gets changed of the consumers/farmers by the authorized person.

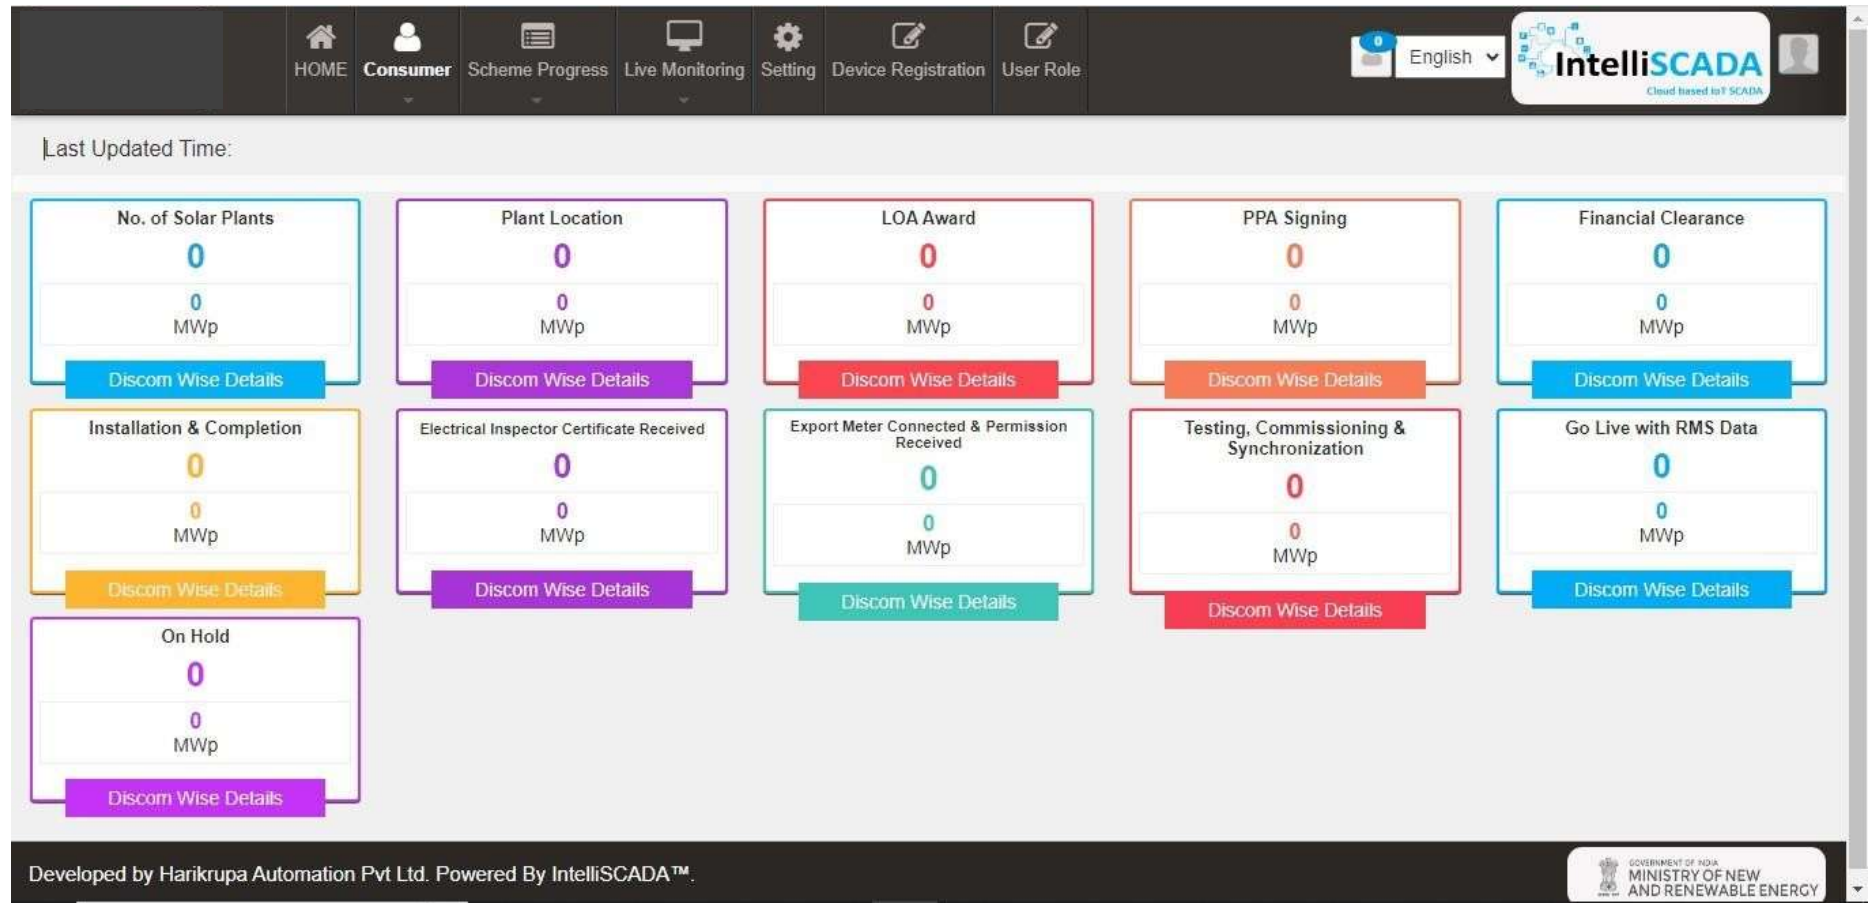

Table 29 SUMMARY EXPLANATION

Status	Image	Description	Want to know how to change status? (Click Ctrl + Click)
No. of Solar Plants		It gives information about how many solar plants areplanted	
Plant Location		This gives us information about location of plant	
LOA Award		Selecting this Functionality will provide the access to update issue of LOA to the beneficiary/developer.	

<p>PPA Signing</p>		<p>Selecting this Functionality will provide the access to update the PPA agreement between the developer and the DISCOM/SIA</p>	
<p>Financial Clearance</p>		<p>Selecting this Functionality will provide the access to update the Financial Clearance between beneficiary/developer and DISCOM/SIA</p>	
<p>Installation & Completion</p>		<p>This entry demonstrates that at which date solar plant is established</p>	
<p>Electrical Inspector Certificate Received</p>		<p>This entry demonstrates that inspection is done and district officer gets certificate</p>	
<p>Export Meter Connected & Permission Received</p>		<p>Meter is connected with plant and permission received .</p>	

<p>Testing, Commissioning & Synchronization</p>		<p>This functionality provides updates about testing, commissioning and synced data</p>	
<p>Go Live with RMS Data</p>		<p>Destric officer can get live data.</p>	
<p>On Hold</p>		<p>Application is on hold. When some condition not right and some data not math on condition.</p>	

- There are several DISCOMs that a user can choose from (pointed out in below Figure 109), depending on their analytical requirement or data studying.

- Each box label has a suitable name given to it which signifies the step at which the application of a user has reached at. It also provides the statistical numbers for this information, along with total solar installation capacity in kilowatts peak (kWp) generated in Horsepower (HP), for allocated users.

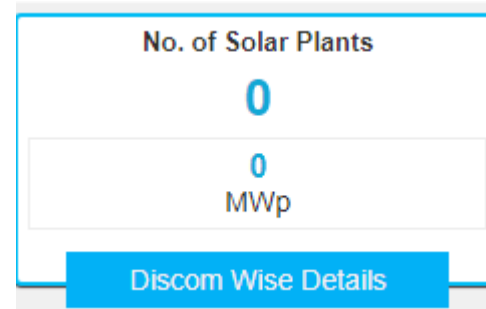

Figure 101 INDIVIDUAL APPLICATION STAGE

- To get more details for every sub-division, users can click on the 'DiscomWise Details' button in the label box. It will display the screen shown below in Figure 113 :

Figure 102 DISTRICT-WISE SUMMARY OF APPLICATIONS RECEIVED FOR VARIOUS PUMP MODELS REPORT

- In this table, users can choose to show or hide columns as per their preference by selecting 'Show / hide columns' button on top right corner.
- Additionally, users can search for their specific division or sub-division by inputting the relevant search query in the 'Search' dialogue box. (highlighted in red in below Figure 116)

15. SCHEME PROGRESS

- The Scheme Progress Module of SEDM portal helps the users to track the progress of application with detailed information, to understand the user role management, to search for bulk queries, and to generate reports including the progress status and application workflow.
- Navigation Steps: -
- a. Sign in on the State SEDM Portal
 - b. Click on the 'Scheme Progress' option on the Title Bar of the SEDM Portal Dashboard

- Sign In >> Scheme Progress
- Below are the brief points covered under this module:

16. SCHEME PROGRESS REPORT

➤ Navigation Steps: -

1. Sign in on the State SEDM Portal
2. Click on the 'Scheme Progress' option on the Title Bar of the SEDM Portal Dashboard
3. Click on the 'Reports' option from the drop-down menu

- Sign In >> Scheme Progress >> MIS Reports
- With the Report feature in Scheme Progress Module on SEDM portal, the users can view and download various types of reports based on the input parameters of the filters provided.

□

□

□

The screenshot displays the 'Farmer List' interface. At the top, there is a navigation bar with icons for HOME, Consumer, Scheme Progress, Live Monitoring, Setting, Device Registration, and User Role. On the right, there is a language dropdown set to 'English' and the IntelliSCADA logo. Below the navigation bar, the 'Farmer List' section is visible, featuring three dropdown filters: 'Select District' (BAGALKOTE), 'Select EA' (ALL), and 'Select Capacity' (ALL Capacity), along with a 'Go' button. Below the filters, there is a section for 'Scheme Progress Stage Information and Date Update'. The main part of the interface is a table with the following columns: Actions, Saral No., Farmer Name, Father/Husband Name, Empannelled Agency, Pump Capacity(H), No. of Solar Plants, Application Received, Plant Location, Feasible Applications, Go Live with RMS Data, Application Rejected, LOA award, and PP. The table is currently empty, and the footer shows 'Page 1 of 0' and 'No records to view'.

Figure 103 SCHEME PROGRESS/ DETAILS

- Different Types of Reports are:

➤ YEARLY PROGRESS SUMMARY

- **Yearly Progress Summary** to show PM-KUSUM scheme progress statistics with respect to years.
- The filter options provided to the users are :
 - Select Empanelled Agency
 - Select District
 - Select Year
 - Result Type
 - Application Status Selection
 - Select sanction
- **Tabular View**

17 SIGN OUT

- The users can log out or sign out from the State SEDM Portal by following 2 methods.
- Either by clicking onto the 'User' icon, present at the top right corner on the title bar of the SEDM Portal (pointed in below

Figure 123) and then selecting the option of 'Logout' (highlighted in red in below Figure 123).

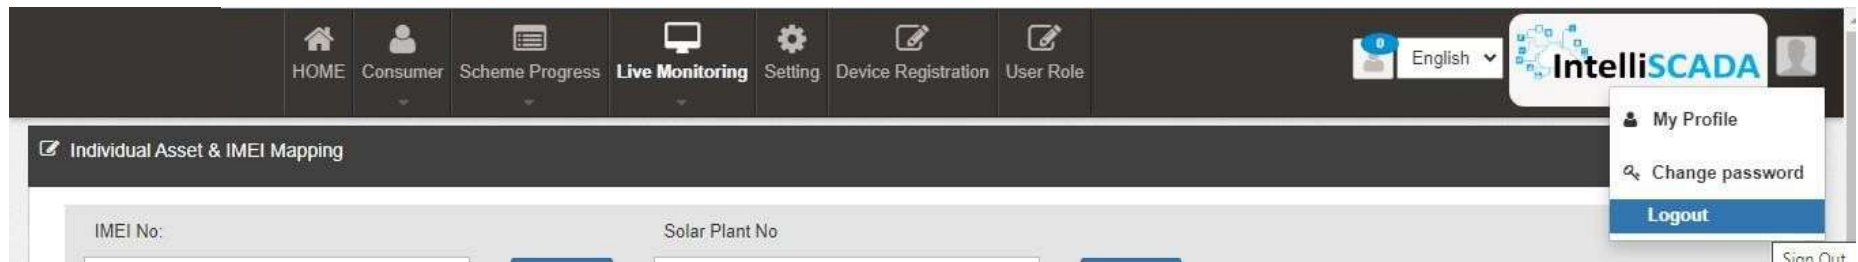

Figure 114 LOGOUT

- The second method is to first click onto the 'Home' page button on the title bar of the SEDM Portal (pointed in red in below Figure 124), and then on the Home Page selecting the option of 'Sign Out' present in the form of a blue coloured button on the top right corner of the page (highlighted in red in Figure 125)

Figure 115 HOME SELECTED

Figure 116 SIGN OUT

18 SUPPORT TEAM CONTACT DETAILS

Email - HO[DOT]LUCKNOW[AT]UPBVN[DOT]ORG

ANNEXURE-I (IMEI NUMBER REGISTRATION)

IMEI NUMBER REGISTRATION

- Navigation Steps: -
 1. Sign in on the State SEDM Portal
 2. Click on the “Device Registration” option on the Title Bar of the SEDM Portal Dashboard

Figure 117 DEVICE REGISTRATION

- IMEI no. can be registered in two ways :
 - Bulk Registration of IMEI nos. by uploading CSV file.
 - Registration of single IMEI no.
- Bulk Registration of IMEI nos. by Uploading CSV file :
- To upload the CSV file for bulk registration of IMEI nos., EA user can download the format of CSV file by clicking on the “Download IMEI CSV File” blue button from the Device Registration dashboard. (highlighted in red in below Figure 127)

Figure 118 IMEI BULK UPLOAD

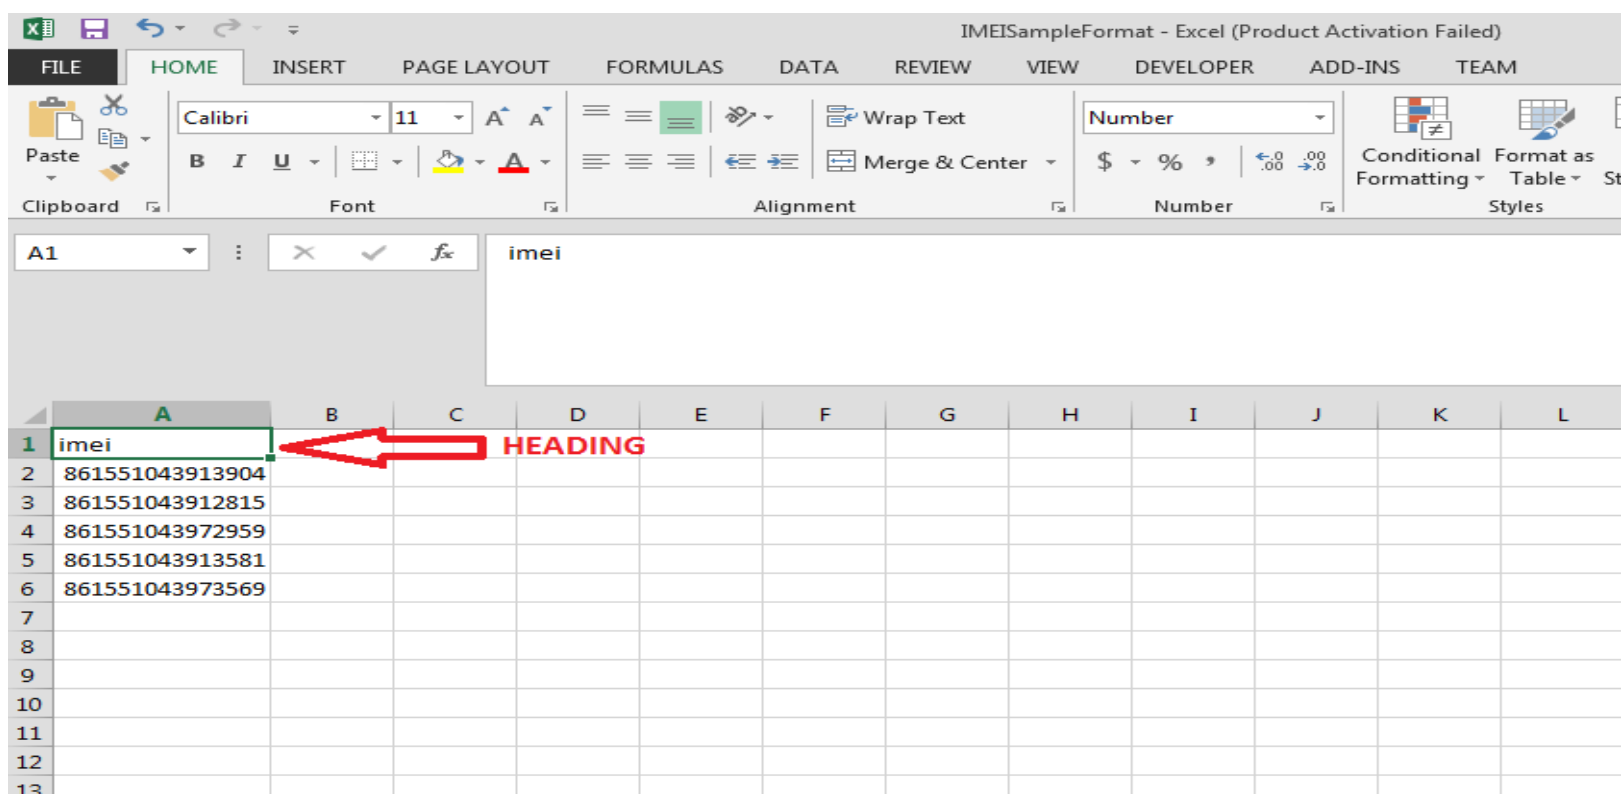

Figure 119 IMEI NO. CSV FORMAT

- The above image is the CSV file format of IMEI nos.
- EA user has to keep the heading “imei” as shown in the first row of CSV file and has to enter their own IMEI nos. starting from the 2nd row as shown in the above Figure 128.
- After creating the CSV file carrying IMEI nos., user has to click on the “Upload Device Registration” button as highlighted in blue in Figure 127: “IMEI bulk upload”.
- A window screen will appear to upload the CSV file carrying IMEI nos. as shown in below Figure 129.

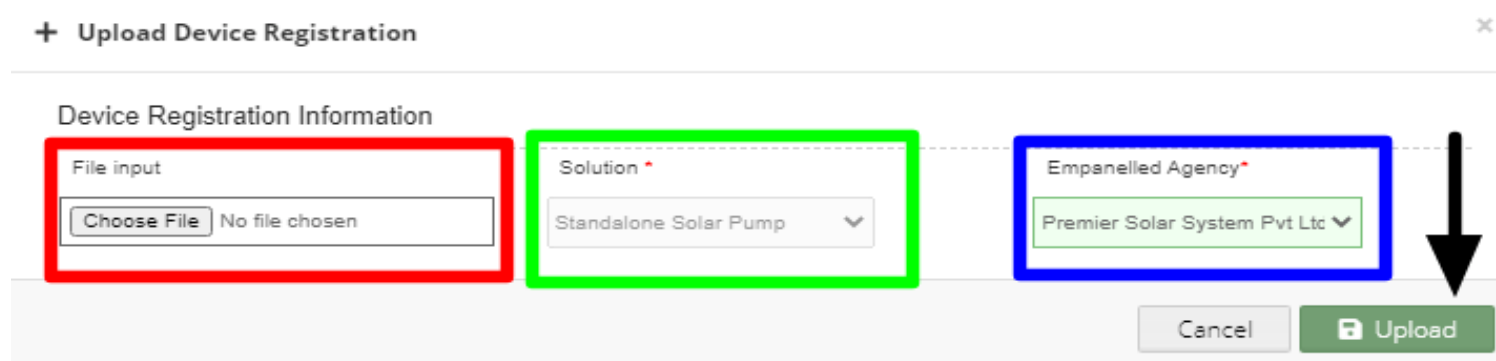

Figure 120 UPLOAD IMEI NO. CSV

- In above screen, EA user can upload IMEI csv file by clicking on the “Choose File” button. (highlighted in red in above Figure 129)
- The above screen arrives with the two filters which is by default selected i.e. “Solution” and “Empanelled Agency”
- EA user can see by default his Empanelled Agency name. (highlighted in blue in above Figure 129)

➤ Registration of single IMEI no.

- EA user can also register single IMEI no, manually by clicking on the “Add New Device Registration” button from the Device Registration Dashboard. (pointed in below Figure 130)

Figure 121 ADD NEW DEVICE REGISTRATION BUTTON

- When EA user will click on the “Add New Device Registration” button, a window screen will appear to enter the 15 digit IMEI no. (as shown in below Figure 131)
- When the user select “Is Password” option (highlighted in red in below Figure 131), it will generate the SSL certificates in the Device Registration dashboard, if not selected then it won’t generate the certificates.

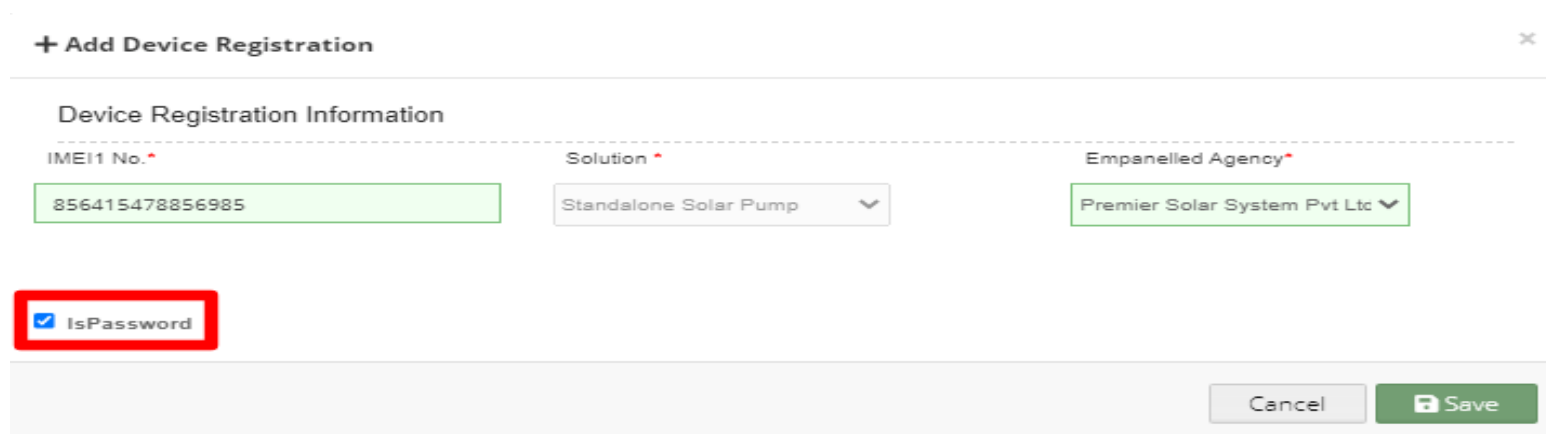

The screenshot shows a modal window titled '+ Add Device Registration'. It contains a form for 'Device Registration Information' with three input fields: 'IMEI1 No.' (containing '856415478856985'), 'Solution' (a dropdown menu with 'Standalone Solar Pump' selected), and 'Empanelled Agency' (a dropdown menu with 'Premier Solar System Pvt Ltc' selected). Below these fields is a checkbox labeled 'Is Password' which is checked and highlighted with a red border. At the bottom right of the form are 'Cancel' and 'Save' buttons.

Figure 122 ADD DEVICE REGISTRATION

- After entering IMEI no., user has to click on the save button and IMEI no. will be registered on the portal and is ready to map with necessary consumer/farm18er.
